G.D. VAN DER WESTHUIZEN

Full-Stack Developer

PROFILE

My name is G.D. van der Westhuizen and I am a full-stack software developer. My personality type is INTJ-A and I am passionate about all things technology related and always eager to learn. I work well under pressure and can keep a laser-sharp focus during stressful situations. I like a challenge and I make it my mission to better every system or workspace. I aspire toward a career as a professional problem solver, I want to create the solutions to tomorrows problems.
